Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.This is a story of salvation. This is a story of a major world crisis. This is a story of exploding bodies and kids out of control, and a darn good witch hunt by a lunatic minister who thinks he is God's gift to. well he's just God's gift, that's all and that should be plenty. But it isn't because aliens are running helter-skelter all over the place trying to exterminate humanity like a cockroach infestation. The whole world is turned upside down where mushrooms are intelligent, and slime mold is at the top of the heap. So where does that leave the rest of us? See for yourself: Alex Liddell thought he was just another 11 year old orphan. He didn't have a clue that he was an alien at the center of a world crisis that would determine if the human race will survive - that is until his world suddenly turned inside out, as the principal of his school swells up like a dirigible and explodes at his own funeral and gets all over everybody. Thanks to a little black dog (Silly Sybean [Psilocybin]) Alex befriends, along with a little old lady (Amanita Hurllothrumbo) who lives up on Old Dung Hill, he and his three best friends, Madison Hadder (the Mad Hatter), Marsha O Hare (the March Hare), and Dora Maus (the Doormouse), are thrust into an amazing race to find a way to save humanity. The planet is out of whack. The three great kingdoms: plants, animals, and fungi have been unbalanced. Human garbage, bombs, and overpopulation are causing mass extinctions and destroying the environment....
