The days of the PC are pretty much over. A laptop gets a lot more punishment than desktops do. With this in mind, notebook manufacturers manufacture their systems to stand up from shaking and occasional drops. Despite the way they are made, laptops are often quick to show signs of wear and tear -- and not just on the outside. Most people have their whole life on their laptops. If your laptop is damaged it can cost you time and money in lost of valuable information and productivity. Thankfully, your laptop or notebooks can often be cured with a quick fix. To pinpoint the most common problems, we picked the brains of senior technical-support officials at some major computer manufacturers. And we've provided solutions for getting your laptop back up and running with minimal effort. Cell Phones: Dropping your cell phone, spilling water on it, overheating the battery accidents can happen, and they're not always your fault. How you choose to repair those accidents is your choice. We would like to share some of their favorite at-home solutions, that cell phone specialist recommend. These tips are for pros and beginners. iPhones, smart phones and cell phones with broken screens, water damage and charging failures tend to affect the majority of the repairs required. They are also the most visible problems and can be diagnosed somewhat more easily; so we'll focus on these problems first!.
