By Gavin Pretor-Pinney

Hodder & Stoughton General Division. Paperback. Book Condition: new. BRAND NEW, The Cloudspotter's Guide, Gavin Pretor-Pinney, 'The clouds are nature's poetry, and the most egalitarian of her displays, since everyone has an equally fantastic view of them. Clouds are for dreamers, and their contemplation benefits the soul. Yet their beauty is so everyday as to be in danger of being overlooked .' Gavin Pretor Pinney is the chairman and founder member of the Cloud Appreciation Society. He contends that we are blessed in this country with a uniquely rich and varied cloudscape, which has hitherto been sadly undervalued. His book teaches us to appreciate their different varieties - the cumulus, nimbostratus and Morning Glory to name only a few - and all their beauties and significances, both meteorological and cultural. We learn how Hindus believed the cumulus clouds were the spiritual cousins of elephants, how thermal air currents act on fair weather cumuli, and how to save a fortune in psychiatric bills by using the clouds as Rorschach images that reflect our state of mind as well as nature's moods. Looking up will never be the same again.

### Reviews

*This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

*This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).*
