Filesize: 8.06 MB

Reviews

The ebook is straightforward in go through preferable to recognize. It typically does not charge too much. Its been designed in an exceptionally straightforward way and it is just following i finished reading this book where basically altered me, affect the way i really believe.

(Dr. Reta Murphy)

MOON AND OTHER NOVELLAS

Victor Publishing, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Five novellas telling stories of how average people cope when thrust into extraordinary circumstances. From the young boy trying to understand why all the adults in town are so worried about the rumble that suddenly began one morning, to the retiree trying to relive his glory days while preparing for the possibility of meeting aliens. After waking up in a coffin, an average working man possesses incredible mental powers, while a boy who has always been told he is his planet's saviour tries to have a normal life while being constantly hunted by the enemy. The chance encounter with a passing alien ship transforms one woman's life, and one man tries to keep the remains of the world together through the magic of radio. These stories delve into the possibilities and restrictions of what it is to be human. Chosen When a mysterious ship appears in the skies over Earth, the world holds its breath and waits. Only Greer knows where it eventually landed: her front yard. The least likely candidate for first contact with aliens, she soon learns that it wasn't pure chance: she was chosen. When mysterious creatures start appearing from nowhere and terrorizing her son, she begins to suspect he may be the key to something more disturbing, for the entire planet. Rumble The world awakes one morning to a massive subterranean rumble: the sound of normally lethargic tectonic plates shifting violently. The resulting havoc and destruction are felt around the globe as mountains grow to staggering heights, entire continents drift across the oceans and violent storms pummel the planet. Six individuals, spread across the globe, try to make sense of...
