

## Domestic Economy for Scholarship Students

By Catherine Isabel Dodd

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1897 Excerpt: .the power of dissolving many substances. There are very few substances, either gaseous, liquid, or solid, that water cannot dissolve. This solvent power is greatly increased by heat, therefore warm water is more useful for washing purposes than cold water. Its action on the soiled clothes is so effective that the particles of dirt and the impure particles from the body are loosened, and the clothes become clean and fresh. We rarely meet with water in its pure state. On account of its great solvent powers it dissolves foreign matters as it runs through the rocks or soil. Hard Water.--When water is impregnated with mineral salts, such as lime or salts of magnesia, the water becomes unfit for laundry purposes, and we call such water hard water. The degree of the hardness of the water depends on the amount of mineral salts the water contains. Sea...

### Reviews

*This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Brennan Koelpin**

*Comprehensive guide! Its this type of very good read through. It is actually writter in simple words and phrases rather than difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Bernie Mante PhD**
