Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Neurological Technique: Some Special Histological Methods Employed for the Study of the Nervous System, Together With a Laboratory Outline for the Dissection of the Central Nervous System and the Neurological Nomenclature (Bna) Arranged in a Classified List At the present time an acquaintance with the architecture of the nervous system is sought, not only by those who expect to pursue the practice of medicine, and who, therefore, need this knowledge for clinical work, but also by anatomists, physiologists, zoologists, and those who are interested in the biological problems that arise in the study of psychology and of its application to education. The object of this volume on neurological technique is to serve as an introduction and laboratory guide to the study of the architecture of this the most, complicated of the bodily systems. Like most books with similar aims, it has grown out of the attempt to meet difficulties that arose in our own laboratory, and the effort to bring together, in a compact form, such data as would make the student independent in the conduct of his introductory work. In the first instance this was done in a set of laboratory outlines, and these, after trial and correction, have been embodied in this book. The material falls into three divisions, each of which may be briefly mentioned. The methods which are here given have stood the test of application in the laboratory. In their presentation special attention has been paid to indicating the quantities of the reagents to be used and the time required for each. There are few occupations in which time can be more easily wasted than in histological technique. About the...
