Nothingness: The Science of Empty Space

By Henning Genz

Basic Books. Paperback. Book Condition: New. Paperback. 352 pages. Dimensions: 8.8in. x 6.0in. x 1.1in. Nothingness addresses one of the most puzzling problems of physics and philosophy: Does empty space have an existence independent of the matter within it? Is empty space really empty, or is it an ocean seething with the creation and destruction of virtual matter? With crystal-clear prose and more than 100 cleverly rendered illustrations, physicist Henning Genz takes the reader from the metaphysical speculations of the ancient Greek philosophers, through the theories of Newton and the early experiments of his contemporaries, right up to the current theories of quantum physics and cosmology to give us the story of one of the most fundamental and puzzling areas of modern physics and philosophy. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
